About the Department

The Department of Instrumentation, originally the University Science Instrumentation Centre (USIC) has its origin in 1978 as a service department with the support of the UGC. It has been extending instrumentation support to science and technology departments of the university. The centre was elevated to a level III USIC by UGC in 1990 and thereafter the centre became a full – fledged Academic department. Currently, the department offers courses on B.Tech, M.Sc and M.Tech in Instrumentation Technology. Department also conducts extensive research in different domains of instrumentation.
